

PRODUCT CODE:
61003M

CRAB SET

MARITIME

DEVICE DATA

PROJECTION AND VIEW OF THE DEVICE

A device with easily and hard-to-reach elements

Compliance with the PN-EN standard: 1176-1:2024-03

Number of users : 6

Age group : 2+

Width : 1.47 m

Length : 3.54 m

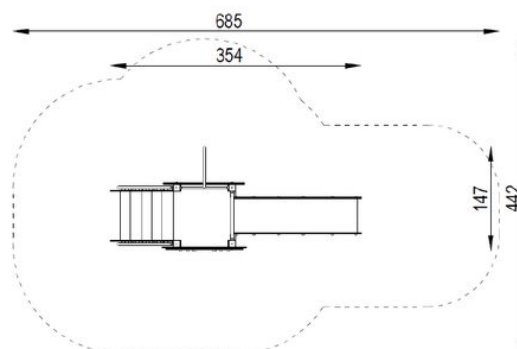

Height : 1.95 m

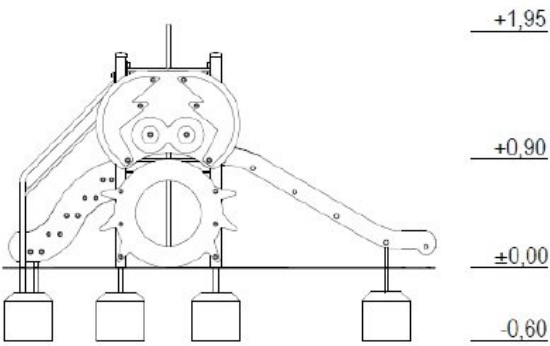

Minimum space required : 6.85 mx 4.42 m

Free fall height : 0.90 m

Fall area : 22.24 m²

Foundation depth : -0.60 m

COMPONENTS

Tower without roof, platform height 0.90 m: 1 pc.

Stairs, height 0.90 m: 1 pc.

Slide, height 0.90 m: 1 pc.

Fire pipe, height 0.90 m: 1 pc.

Tunnel passage: 1 pc.

TECHNOLOGY

Structural legs: square steel profiles, galvanized, powder coated in gray

Roof elements: HDPE board, 15mm thick, dyed throughout

Platforms: waterproof plywood , 15mm thick, with a dark brown hexagonal anti-slip layer, mounted on joists made of 60x40mm cross-section steel profiles, galvanized, unpainted

Steel elements: galvanized steel, powder coated

Slide: sides made of 15mm thick HDPE board (or 12mm thick HPL), slide made of 1.5mm thick AISI304 stainless steel sheet

Tunnel: PVC pipe, mounted on HDPE boards

End caps: plastic

Foundations: concrete class C 12/15 minimum

Due to continuous improvement of technical solutions, the presented drawings, including colors and dimensions, may differ slightly from the currently manufactured devices.
