Rope gymcenter
VVZ-GYM001-T

VVZ-GYM001-T Rope gymcenter

The rope gymcenter is a compact cube-shaped climbing structure with two spider-web nets and two climbing walls. This structure offers a variety of climbing challenges and obstacles while allowing several children to play together at the same time. Climbing activities naturally support the development of agility, movement coordination and physical fitness. The supporting structure is made of hot-dip galvanised steel with a durable powder-coated finish. The polyester ropes offer high strength and resistance to mechanical stress and weathering, while stainless-steel fasteners contribute to a long service life in outdoor environments.

Specifications

The Rope gymcenter VVZ-GYM001-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	1.70 x 1.70 x 2.00 m (L x W x H)
Max. Fall Height:	up to 2.00 m
Safety Surfacing Area:	5.50 x 5.50 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene ropes, stainless steel fasteners
Weight:	115 kg
