VVZ-GYM002-2-T Small rope gymcenter

The small rope gymcenter is a compact cube-shaped climbing structure with a horizontal bar, ladder, climbing bars and ropes with balance discs. This structure offers a variety of climbing and balancing activities while allowing several children to play together at the same time. The varied play elements naturally support the development of agility, balance, movement coordination and physical fitness. The supporting structure is made of hot-dip galvanised steel with a durable powder-coated finish. The polyester ropes offer high strength and resistance to mechanical stress and weathering. The structure also incorporates HPL elements and stainless-steel fasteners for long service life in outdoor environments.

Specifications

The Small rope gymcenter VVZ-GYM002-2-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	1.30 x 1.30 x 2.10 m (L x W x H)
Max. Fall Height:	up to 2.00 m
Safety Surfacing Area:	5.10 x 5.10 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene ropes, stainless steel fasteners
Weight:	70 kg
