Hexagonal rope gymcenter
VVZ-GYM003-1-T

VVZ-GYM003-1-T Hexagonal rope gymcenter

The hexagonal rope gymcenter is a spacious climbing structure featuring climbing bars, a climbing pole, a rope with balance discs, a climbing wall with holds, a ladder and a rope climbing net. This structure offers a variety of climbing, obstacle and balancing activities while allowing several children to play together at the same time. The varied play elements naturally support the development of agility, balance, movement coordination and physical fitness. The supporting structure is made of hot-dip galvanised steel with a durable surface finish. The polyester ropes offer high strength and resistance to mechanical stress and weathering. The structure also incorporates HPL elements and stainless-steel fasteners for long service life in outdoor environments.

Specifications

The Hexagonal rope gymcenter VVZ-GYM003-1-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.70 x 2.40 x 2.10 m (L x W x H)
Max. Fall Height:	up to 2.00 m
Safety Surfacing Area:	6.50 x 6.20 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene ropes, stainless steel fasteners
Weight:	160 kg
