VVZ-GYM005-2-T Small gymcenter

The small rope gymcenter is a compact climbing structure comprising three different sections – a ladder, climbing bars and a rope with balance discs. This structure offers a variety of climbing and balancing activities while allowing several children to play together at the same time. The individual play elements naturally support the development of agility, balance, movement coordination and overall physical fitness. The supporting structure is made of zinc-treated steel with a durable powder-coated finish. The polyester rope offers high strength and resistance to mechanical stress and weathering. Stainless-steel fasteners contribute to a long service life in outdoor environments.

Specifications

The Small gymcenter VVZ-GYM005-2-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.40 x 1.30 x 2.10 m (L x W x H)
Max. Fall Height:	up to 2.0 m
Safety Surfacing Area:	6.20 x 5.10 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene ropes, HPL, stainless steel fasteners
Weight:	70 kg
