Alternating gymcenter
VVZ-GYM005-T

VVZ-GYM005-T Alternating gymcenter

The rope gymcenter is a spacious climbing structure comprising five different sections – a climbing pole, rope climbing net, climbing bars, overhead rings and a climbing wall with holds. This structure offers a variety of climbing, traversing and obstacle-based activities while allowing several children to play together at the same time. The varied play elements naturally support the development of agility, movement coordination, strength and physical fitness. The supporting structure is made of zinc-treated steel with a durable powder-coated finish. The polyester ropes offer high strength and resistance to mechanical stress and weathering. The HPL climbing wall and stainless-steel fasteners contribute to a long service life in outdoor environments.

Specifications

The Alternating gymcenter VVZ-GYM005-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.60 x 2.40 x 2.10 m (L x W x H)
Max. Fall Height:	up to 2.00 m
Safety Surfacing Area:	7.40 x 6.20 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene ropes, stainless steel fasteners
Weight:	150 kg
