Large gymcenter
VVZ-GYM007-T

VVZ-GYM007-T Large gymcenter

The large rope gymcenter is an extensive climbing structure comprising a variety of play elements – overhead rings, climbing poles, ladders, climbing bars, a climbing wall and ropes with balance discs. This structure offers a wide range of climbing, traversing, obstacle and balancing activities while allowing a larger number of children to play together at the same time. The varied play elements naturally support the development of agility, balance, movement coordination, strength and overall physical fitness. The supporting structure is made of steel with a durable powder-coated finish. The polyester ropes offer high strength and resistance to mechanical stress and weathering. The HPL climbing and balance elements, together with stainless-steel fasteners, contribute to a long service life in outdoor environments.

Specifications

The Large gymcenter VVZ-GYM007-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	6.30 x 2.40 x 2.10 m (L x W x H)
Max. Fall Height:	up to 2.00 m
Safety Surfacing Area:	10.10 x 6.10 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, polypropylene ropes, HPL, stainless steel fasteners
Weight:	350 kg
