Rope Bridge
VVZ-MP1-01-T

VVZ-MP1-01-T Rope Bridge

The Rope Bridge invites children to practise stability and coordination as they make their way across. The structure is manufactured from hot-dip galvanised steel with a high-quality finish; all connections are made from stainless steel and covered with plastic protective caps to enhance safety and extend the service life of the joints. The ropes are made of polyester fibers wound around a central reinforcement, which increases their strength and resistance to mechanical wear. Polyester offers a range of beneficial properties: it is resistant to micro-organisms and weathering, dries quickly after rain, is colorfast, and delivers high tensile strength.

Specifications

The Rope Bridge VVZ-MP1-01-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.00 x 1.00 x 1.00 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	5.00 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, PA, polypropylene ropes, stainless steel fasteners
Weight:	60 kg
