Balance Bridge
VVZ-MP1-02-T

VVZ-MP1-02-T Balance Bridge

This maintenance-free balance bridge features HPL anti-slip treads suspended on polyester ropes, inviting children to train their coordination, stability, and balance. The structure is constructed from hot-dip galvanised steel finished with a powder-coated baked paint. The ropes are made of polyester fibers wound around a central reinforcement, which increases tensile strength and resistance to mechanical wear. Polyester itself offers a number of beneficial properties: it is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and offers high tensile strength. All fasteners are stainless steel. A grassed surface may be used as safety surfacing; however, the use of a grass reinforcement mat is recommended.

Specifications

The Balance Bridge VVZ-MP1-02-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	2.00 x 1.00 x 1.00 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	5.00 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, PA, HPL, polypropylene ropes, stainless steel fasteners
Weight:	70 kg
