Double Balance Bridge
VVZ-MP2-01-T

VVZ-MP2-01-T Double Balance Bridge

This maintenance-free combined balance bridge features HPL treads suspended on polyester ropes, inviting children to train their coordination, stability, and balance. The structure is made from hot-dip galvanised steel finished with a powder-coated paint system. The ropes are constructed from polyester fibers wound around a central reinforcement, which increases their strength and resistance to mechanical wear. Polyester offers a wide range of beneficial properties: it is resistant to micro-organisms and weathering, dries quickly after rain, is color-stable, and offers high tensile strength. All fasteners are stainless steel. A grass surface may be used as the safety surfacing, although the use of a grass-protection mat is recommended.

Specifications

The Double Balance Bridge VVZ-MP2-01-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	3.90 x 1.00 x 1.20 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	6.90 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, PA, HPL, polypropylene ropes, stainless steel fasteners
Weight:	120 kg
