Triple Balance Bridge
VVZ-MP3-01-T

VVZ-MP3-01-T Triple Balance Bridge

The Triple Balance Bridge is a maintenance-free combined balance bridge featuring HPL stepping pads suspended on polyester ropes. This product invites children to train their coordination, stability, and balance as they make their way across. The structure is made from hot-dip galvanised steel finished with a powder-coated paint. The ropes are constructed from polyester fibers wound around a central reinforcement, which increases their strength and resistance to mechanical wear. Polyester offers a range of beneficial properties: it is resistant to microorganisms and weathering, dries quickly after rain, is color-stable, and has high tensile strength. All fasteners are stainless steel. A grass surface may be used as safety surfacing; however, a grass protection mat is recommended.

Specifications

The Triple Balance Bridge VVZ-MP3-01-T is certified according to STN EN 1176

Age Group:	3-14 years
Product Dimensions:	5.80 x 1.00 x 1.20 m (L x W x H)
Max. Fall Height:	up to 0.99 m
Safety Surfacing Area:	8.80 x 4.00 m (according to STN EN 1176-1)
Materials:	Galvanised and powder-coated steel, PA, HPL, polypropylene ropes, stainless steel fasteners
Weight:	170 kg
